

*Your attitude to life determines  
your altitude in life*

*In today's reality, retrenchment of employees is unavoidable. For those employees considering the tax implication of their severance packages, take note. There is a once off R30 000 tax exemption on your severance package. However, if you take advantage of it now you will not be able to do so again regardless of whether you are again retrenched, terminate your employment due to ill health or disability or retire.*
